Intelesis Technologies Corporation

Featured Work

Navy Family Accountability and Assessment System

NFAAS standardized a method to account, manage, and monitor the recovery process following a catastrophe.

Test Information Management Environment

TIME is a secure, web-enabled environment for the entry, planning, storage, recall, analysis and reporting of test procedures and test results.

Olhausen "Build Your Own Pool Table"

Customers can select different models of pool tables and combinations of features, with over 2 trillion possible combinations!

Navy Marine Corps Portal

NMCP collects, coordinates, processes, analyzes and presents complex information to literally millions of users at sites around the globe.

Joint Cross Domain Exchange

JCDX is a computing platform that can process information at multiple security levels and safely exchange information between them.

Your immediate and innovative response provided critical support to our commands in need during frightening conditions in chaotic times.

Efforts in Task Force Navy Family established a new standard in family care following a disaster.

Thank you for a job exceedingly 'well done!'

~ **M.G. Mullen**

Admiral, U.S. Navy

Chief of Naval Operations

It was with great pleasure that I presented the DON IM/IT Excellence Award. The team's outstanding performance, group initiative, and unswerving devotion to duty reflected credit upon themselves in keeping with the highest traditions of the United States Naval Service.

~ **D.M. Wennergren**

Department of the Navy Chief Information Officer
U.S. Navy
